DESCRIPTION OF THE CIRCUIT

DESCRIPTION OF THE CIRCUIT

TECHNICAL CHARACTERISTICS
- Length 2.702
- Constant width 12 mt
- 14-metre wide straight
- 16-metre wide pit lane
- Emergency lane that does not interfere with the layout of the track

The structure of the track has been designed to ensure overtaking manoeuvres and heighten the spectacle. In fact each important section is followed by a 'slow' corner that requires very hard braking. Every corner brings a different curvature in order to encourage a variety of riding techniques.
